

FV Series Fruits & Vegetables Washing Machine

INTRODUCTION

WINTRUE FV Series Fruits & Vegetables Washing Machine uses high-pressure water flow and a bubble generating device to impact the surface of the object to be cleaned, so that the material is in a tumbling state during the cleaning process, and achieves the effects of removing sediment and dust. It is suitable for cleaning all kinds of fruits, vegetables, aquatic products and medicinal materials, and the equipment can be customized according to the output.

APPLICATION

The washing machine can be used for washing fruits, vegetables, aquatic product and medicinal materials in various industries, such as commercial kitchens, restaurants, vegetables processing, and aquatic food processing etc.

FEATURES

- The machine frame is made of national standard food grade stainless steel, which is sturdy and durable, and the equipment raw materials will not be damaged, so as to achieve the effects of high cleaning, labor saving, water saving, stable equipment performance, and reliability.
- The user can adjust the speed of the mesh belt arbitrarily according to the process requirements, so that the cleaned objects can be thoroughly cleaned.
- Save water, electricity, time, cleanliness and sanitation.
- No damage to vegetables, high efficiency, small footprint, safe and reliable.
- Simple installation, easy operation, convenient maintenance and low energy consumption.
- The conveying part of the machine adopts SUS304 stainless steel mesh belt, which has the characteristics of stable operation and long service life, which meets the requirements of food hygiene. Simple operation, convenient installation and maintenance.

Drying Machine

CUSTOMIZATION PROCESS

1. Communicate the cleaning requirements.
2. Design according to requirements and quote.
3. Modify the design until satisfaction, then confirm the final design and quotation.
4. Place order and pay the advance payment.
5. Arrange the production.

WARRANTY & PACKAGE

Warranty: 24 months from B/L date

Package: International Standard Veneer Case
